

Graff-Off Gel

NPSL's effective graffiti removal gel for use on porous and non-porous surfaces

Description

Nordic Graff-Off Gel is an industrial strength graffiti remover used for removing graffiti from non-porous and some painted surfaces. Extremely effective for removal of aerosol paint, marker pen, scuff marks and glue residue (including fly posters). It is designed to be environmentally and user friendly as it is neutralised by water and is fully biodegradable.

Application

Apply with a soft brush and leave for a few minutes until graffiti has reacted. Rinse off with water using a sponge or scourer. On non-porous surfaces, a pressure washer may be required to remove dissolved paint from uneven surfaces. If the surface being treated is porous, it is recommended that the surface is washed thoroughly with water to avoid dissolved paint from being reabsorbed and leaving marks.

IMPORTANT - PLEASE READ THE DATA SHEET FOR ALL SAFETY INFORMATION PRIOR TO USE.

About Nordic Products and Services Ltd

Since 1994 Nordic have earned a reputation within the industry as the premier supplier of environmentally friendly graffiti cleaning products. Protection of the environment has always been of paramount importance to Nordic. Our policy of providing safe to use products has enabled Nordic to establish long term relationships with nationally recognised organisations, local authorities and contract service companies. Our technical sales and support team, product range and contract cleaning services provide the market with total graffiti removal and prevention solutions.
